Getting back in the Loop with RTE!

Did you know that some of our IHHA members appeared recently on RTE Radio 1 to talk about hearing loss? When Carol Robinson Tweed spoke to Gerry McArdle, producer of 'Outside the Box' recently, she discovered that the station had not done anything on deafness for many years; Gerry had often thought of doing a programme on deafness but hadn't known how to go about it. He invited Carol to put together ideas for a show, outlining the important issues and the questions that should be asked, and he approved them. Carol assembled a panel comprising Ken, Diana, Brigid and herself and off they went for a recording! The show was broadcast on 15th January 2010.

Feedback has been extremely positive. [Read the transcript by clicking here](#) Note read "Aural" for "Oral"
